

THICK PLASTERS AND COATINGS

INTONACHINO AND MARMORINO COATINGS
FOR EXTERIOR DECORATION

COATINGS

Thermal Insulation coatings, thermoplasters, and any plastered surface, all of them can be coated with arteMURI Intonachino coats.

They are supplied coloured ready-to-use, fiber-reinforced, with particular water dispersion biocidal product and innovative technology of microencapsulation of active substance.

The products are distinguished from each other by the binding system and for the aesthetic effect.
